Friday was a busy day in the ju venile court, as three boys were com mitted to the state industrial school by Judge McMaster; one girl was placed on probation; two boys were committed to the Uintab training school, and two were discharged after an admoni-

Two boys, aged 10 and 12 years respectively, were sentenced to the industrial school for general incorrigibility. Both had been inmates of the Uintah training school and ran away from that justitution on several occasions, and while away, committed petty thefts and burglaries. The older one is the lad who ran away from the school on Sunday and whose mother secreted him from the juvenile court officers in the lathing of the attic in her home.

His mother was in the courtroom in the investigation of his case, but as she can not understand English, did not know what was going on. After the hearing she waited some time for her boy to go home with her, and finally the lad told her that he was committed to the school. Judge McMaster then made the boy tell his mother all about what he had done, which was the first intimation of his wrongdoing she had. She was much shocked at she had. She was much shocked at the information and finally left the courtroom by herself.

Assistant Fire Chief Fitzgerald Reports on the State Mental Hospital.

SPEAKS IN HIGH TERMS OF WORK OF DR. CALDER

Two Other Bad Youngsters Are Trip to Saltair and Organ Re- Valuable Suggestions Are Made for the Benefit of the Inmates.

> Assistant Chief Fitzgerald of the Sali Lake City fire department returned Friday afternson from Provo, where he had gone at the invitation of Dr. D. H. Calder, superintendent of the State Mental hespital, and David Mattson, chairman of the state board of insane, for the purpose of making an examination of the fire equipment of the hospital. Assistant Chief Fitzgerald spoke in the highest terms of the work of Dr. Calder in the training of the insane inmates to leave the building in case of fire. Speaking of the fire equipment at the hospital Assistant Chief Fitzgerald said:
>
> "I found that the ladder equipment of the buildings was of the best, allowing any portion of the buildings to be readily reached from the ground. The ladders, which are of iron, can be used with safety in going from the top of one building to the other.

Pressure Inadequate

Pressure Inadequate.

"The greatest danger to the buildings in case of fire is due to the fact that the maximum water pressure is sixty-five pounds and the minimum drops as low as twenty pounds. Considering the fact that the inmates of the buildings, which are four stories high, are more helpless than so many children and a great deal harder to handle in case of fire, such a pressure is entirely inndequate. To meet this condition, the hospital has in the course of construction at the present time, a reservoir, which, when filled, will contain 26,000 gallons of water.

"I have suggested that this reservoir be filled at all times and held in reserve for fires, and that the hospital continue to use water for domestic purposes from the Provo waterworks. With the 26,000 gallons of water held in reserve the pressure in the yard of the buildings will be ninety-five pounds, which is ample.

"I have also recommended that the hospital be equipped at once with two thirty-five-gallon chemical tanks, mounted on a wagon, attached to which tanks should be 150 feet of new hose. Spiral fire escapes have also been recommended. By aid of this improvement all of the male inmates in the hospital could be taken out in four minutes.

the immates."

Assistant Chief Fitzgerald was visited by Dr. Calder and Chairman Mattson Wednesday afternoon last and they urgently requested him to visit the hospital at Provo and suggest the necessary equipment. Assistant Chief Fitzgerald will reduce his recommendations to writing and forward his report to the board after which the report will be submitted to the city council of Provo.

The State Mental hospital is paying to the city of Provo \$1000 for water each year and there is some opposition to the construction of the reservoir. Dr. Calderhas the interests of the immates at heart and is pushing the matter of better equipment with the board.

Estimate Finally Settled.

The board finally settled the final estimate in favor of the Campbell Building company for the completion of the wooden stave pipe line. The matter has been held up for several months owing to a dispute over the question of whether a penalty should be enforced for failing to complete the contract within the specified time. Inasmuch as the city was not harmed by the delay, the board decided to impose no penalty and will recommend to the council that the company be paid \$6850.23 as settlement in full for the balance due on the contract. An extra work order was issued to Doyle Brothers & Schwartz for moving watermains from the Fourth precinct to the First precinct and laying them on Sixteenth and Seventsenth East streets and Rooseveit and Emerson avenues. Holmes to visit the hotel.

When the visitors go through this splendid new hotel they will not only be surprised, but they will be astonished, for it is one of the handsomest furnished hotels anywhere in the country, everything being of the best.

The carpets are heautiful in design, the furniture, excepting the beds is of mahogany, the beds are brass and all the other furnishings are in keeping. There is hot and cold running water in every one of the 230 rooms, and 180 of the rooms connect with baths. The rooms are single and en suite. In the fittings and furnishings no expense has been spared, and this is demonstrated when the reader is informed that \$100,000 has been expended in the new hotel. The lighting and ventilation is perfect, every room having outside light, while the electric lighting system is perfect. Tungsten lights are used throughout.

The printers decided to hold weekly meetings at the club, the first of which will be held next Tuesday in the form of a luncheon.

A committee consisting of F. W. Gardner, D. R. Lyon and William Grimsdell was appointed to draw up a resolution to be sent to the Utah delegation in congress favoring the Nelson bill, which will result in the government crassing to print return stamped envelopes free of charge. An entertainment committee was appointed with W. G. Grimsdell as chafrman and C. L. Clayton and J. H. Lovendale as additional members.
